

Publication List of Dr Trevor J. Hawkeswood (1977-2009)

1977

1. Those mighty plant defoliators- the Chrysomelidae. *Wildlife in Australia*, 14: 11-14.
2. *Pomax*. *Australian Plants*, 9: 87-89.
3. The genus *Lissanthe* R.Br. *Australian Plants*, 9: 125-131.

1978

4. The genus *Melichrus* R.Br. *Australian Plants*, 10: 36-39.
5. Observations on some Buprestidae (Coleoptera) from the Blue Mountains, N.S.W. *Australian Zoologist*, 19: 257-275.

1979

6. Some mistletoes and hosts from the Murchison and Wooramel Rivers, W.A. *Western Australian Naturalist*, 14: 160-161.

1980

7. Notes on the biology and distribution of two species of *Diadoxus* (Coleoptera: Buprestidae) in Western Australia. *Western Australian Naturalist*, 14: 228-233. (With M. Peterson as first author).
8. Notes on some butterflies from Glenbrook, New South Wales. *Australian Entomological Magazine*, 7: 37-38.
9. Further notes on mistletoes from the Murchison area, W.A. *Western Australian Naturalist*, 14: 198.
10. An adult food plant of *Ethon breve* (Coleoptera: Buprestidae). *Western Australian Naturalist*, 14: 198.
11. A record of *Orthetrum caledonicum* feeding on another dragonfly. *Western Australian Naturalist*, 14: 201. (With M. Peterson as first author).
12. Jewel beetles as pollinators of *Melaleuca pauperiflora* F. Muell. between Eucla (W.A.) and Koonalda (S.A.). *Western Australian Naturalist*, 14: 238-239.
13. A spider feeding on a jewel beetle. *Western Australian Naturalist*, 14: 236.
14. Jewels among the beetles. *Wildlife in Australia*, 17: 9-10.
15. *Calothamnus*- a review. Part 1. 4-merous species. *Australian Plants*, 11: 5-23.
16. *Pomax*- further notes. *Australian Plants*, 11: 38.

1981

17. Insect pollination of *Angophora woodsiana* F.M. Bail. (Myrtaceae) at Burbank, south-east Queensland. *Victorian Naturalist*, 98: 120-129.
18. Observations on two sympatric species of Buprestidae (Coleoptera) from sand dunes on the north coast of New South Wales. *Victorian Naturalist*, 98:146-151.
19. Observations on some jewel beetles (Coleoptera: Buprestidae) from the Armidale district, north-eastern New South Wales. *Victorian Naturalist*, 98: 152-

155.

20. A list and further notes on the butterflies from Glenbrook, New South Wales. *Victorian Naturalist*, 98: 210-213.

21. The food plants of *Jalmenus evagoras* (Donovan)(Lepidoptera: Lycaenidae). *Australian Entomological Magazine*, 8: 1-2.

22. Notes on the pollination of *Nuytsia floribunda* (Labill.) R.Br. (Loranthaceae) and some literature reviewed. *Western Australian Naturalist*, 15: 17-21.

23. A record of a centipede killing and feeding on a sawfly larva. *Western Australian Naturalist*, 15: 29-30. (With M. Peterson as second author).

24. *Planchonia*- the genus in Australia. *Australian Plants*, 12: 178-182.

1982

25. Notes on insect pollination of two species of *Eucalyptus* (Myrtaceae) from south-west Western Australia. *Victorian Naturalist*, 99: 28-37.

26. Notes on the life history of *Aspidomorpha maculatissima* Boheman (Coleoptera: Chrysomelidae: Cassidinae) at Townsville, north Queensland. *Victorian Naturalist*, 99: 92-101.

27. A record of *Thomisus spectabilis* Dolesch. 1859 (Araneida: Thomisidae) feeding on a scarab beetle. *Victorian Naturalist*, 99: 140-141.

28. A review of larval host records for Australian jewel beetles (Coleoptera: Buprestidae). *Victorian Naturalist*, 99: 240-251. (With M. Peterson as second author).

1983

29. Pollination and fruit production of *Cupaniopsis anacardioides* (A. Rich.) Radlkf. (Sapindaceae) at Townsville, north Queensland. I. Pollination and floral biology. *Victorian Naturalist*, 100: 12-20.

30. Notes on the pollination and fruit production of *Cupaniopsis anacardioides* (A. Rich.) Radlkf. (Sapindaceae) at Townsville, north Queensland. Part II. Fruit and seed production. *Victorian Naturalist*, 100:121-124.

31. Overwintering by *Calomela juncta* Lea (Coleoptera: Chrysomelidae) with *Melanterius vulgivagus* Lea (Curculionidae) at Brisbane, Queensland. *Victorian Naturalist*, 100: 115-116.

32. Observations on *Pyrgoides dryops* (Blackburn), a pollen-feeding beetle on *Acacia leiocalyx* (Domin) Pedley at Brisbane, south-east Queensland. *Victorian Naturalist*, 100: 156-158.

33. Notes on the biology and distribution of a rare jewel beetle *Pseudotaenia waterhousei* (Van de Poll)(Coleoptera: Buprestidae). *Victorian Naturalist*, 100: 238-241.

1984

34. Nine new species of *Calothamnus* Labill. (Myrtaceae: Leptospermoideae) from Western Australia. *Nuytsia*, 5: 123-153.

35. *Calothamnus accedens* T.J. Hawkeswood (Myrtaceae), a rare and endangered new species from Western Australia. *Nuytsia*, 5: 310-315.

36. Spiders as aids in capturing pollinators of orchids? *Victorian Naturalist*, 101: 161-162.
37. Book Review. "Travels and Adventures in South Australia 1836-1838" by W.H. Leigh. *Victorian Naturalist*, 101: 179.
38. Letter to the Editor. *GEO*, 6(2): 2.

1985

39. The role of butterflies as pollinators of *Acacia bidwillii* Benth. (Mimosaceae) at Townsville, northern Queensland. *Australian Journal of Botany*, 33: 167-173.
40. The larva of *Diadoxus erythrurus* (White)(Coleoptera: Buprestidae). *Australian Entomological Magazine*, 12: 23-28.
41. Notes on some beetles (Coleoptera) associated with *Xanthorrhoea johnsonii* (Xanthorrhoeaceae) in the Brisbane area, south-east Queensland. *Victorian Naturalist*, 102: 162-166.
42. Observations on some jewel beetles (Buprestidae: Coleoptera) in Western Australia. *Victorian Naturalist*, 102: 205-206. (With D.G. Knowles as junior author).
43. Host plant record for *Figulus regularis* Westwood (Coleoptera: Lucanidae). *Coleopterists Bulletin*, 39: 200.
44. New larval host plants for three Australian longicorns (Coleoptera: Cerambycidae). *Coleopterists Bulletin*, 39: 257.
45. New larval host records for two Australian jewel beetles (Coleoptera: Buprestidae). *Coleopterists Bulletin*, 39: 258.
46. Records of predation on Australian Buprestidae and Scarabaeidae (Coleoptera) by Asilidae (Diptera). *Coleopterists Bulletin*, 39: 354.
47. New larval host plants for ten Australian longicorns (Coleoptera, Cerambycidae). *Giornale Italiano di Entomologia*, 2: 393-397.
48. The food plants of *Jalmenus daemeli* Semper (Lycaenidae) with notes on other butterflies and *Acacia* food plants. *Journal of the Lepidopterists Society*, 39: 276-279.
49. The Stinging Tree Beetle. *Wildlife Australia*, 22: 18-19. (A more scientific article with the beetle properly illustrated is provided in paper no. 122).

1986

50. Notes on two species of Australian fungus beetles (Coleoptera: Erotylidae). *Coleopterists Bulletin*, 40: 27-28.
51. New food plants for adults of three species of the Australian genus *Lamprolina* (Coleoptera: Chrysomelidae). *Coleopterists Bulletin*, 40: 104.
52. *Mynes geoffroyi guerini* Wallace (Nymphalidae) parasitised by a tachinid fly. *Journal of the Lepidopterists Society*, 40: 347.
53. A new species of *Chrysobothris* (Coleoptera, Buprestidae, Chrysobothrinae) from Townsville, northern Queensland, Australia. *Giornale Italiano di Entomologia*, 3: 167-172.
54. New larval host records for eight Australian jewel beetles (Coleoptera, Buprestidae). *Giornale Italiano di Entomologia*, 3: 173-177.
55. A list and notes on the Buprestidae (Coleoptera) collected during 1977-79 from the Armidale district, New South Wales. *Contributions to Australian Biological*

- Science*, 1: 1-12. (This is a privately printed research paper which was officially published as paper no. 177 with some additions and modifications).
56. Observations on some Buprestidae (Coleoptera) from the Blue Mountains, N.S.W. (Corrections). *Contributions to Australian Biological Science*, 2: 1-2.
57. Observations on the longicorn beetle, *Tritocosmia roei* (Hope)(Coleoptera: Cerambycidae). *Victorian Naturalist*, 103: 122.
58. Book Review. "A History of Australian Exploration..." by E. Favenc. *Victorian Naturalist*, 103: 58-59.

1987

59. Insect pollination of *Melaleuca lanceolata* Otto (Myrtaceae), *Leucopogon parvifolius* (Andr.) Lindl. (Epacridaceae) and *Eryngium pinnatifidum* Bunge (Apiaceae) from Western Australia. *Contributions to Australian Biological Science*, 3: 1-2. (This is a privately printed paper which was officially published as part of paper no. 174).
60. Book Review. "A Guide to the Genera of Beetles of South Australia. Part 1." by E.G. Matthews. *Contributions to Australian Biological Science*, 4: 1.
61. Pollination of *Leptospermum flavescens* Sm. (Myrtaceae) by beetles (Coleoptera) in the Blue Mountains, New South Wales, Australia. *Giornale Italiano di Entomologia*, 3: 261-269.
62. Notes on some Coleoptera from *Baeckea stenophylla* F. Muell. (Myrtaceae) in New South Wales, Australia. *Giornale Italiano di Entomologia*, 3: 285-290.
63. Observations on a *Dasytes* species (Coleoptera: Melyridae), a pollen-feeding beetle on daisies (Asteraceae) in northern New South Wales. *Victorian Naturalist*, 104: 76-80.
64. *Beetles of Australia*. Angus & Robertson Publishers, Sydney: VIII + 248.
65. Bemerkungen zur Biologie und zu den Wirtspflanzen des australischen Bockkäfers *Pachydissus sericus* Newman (Coleoptera: Cerambycidae). *Entomologische Zeitschrift*, 97: 221-224.
66. Bestäubung von *Verticordia picta* (Myrtaceae) durch Scarabaeiden (Coleoptera: Scarabaeidae). *Entomologische Zeitschrift*, 97: 257-260. (An English translation of this paper was published as part of paper no. 174).
67. Bemerkungen zur Biologie und zum Verhalten von *Repsimus manicatus* (Swartz) in den Blue Mountains, New South Wales, Australia (Coleoptera: Scarabaeidae: Rutelinae). *Entomologische Zeitschrift*, 97: 282-284.
68. Bemerkungen zur Biologie und Giftwirkung von *Arthropterus westwoodi* Macleay (Coleoptera: Carabidae). *Entomologische Zeitschrift*, 97: 321-323.
69. A taxonomic revision of the genus *Calothamnus* Labill. (Myrtaceae: Leptospermoideae). Part 1. The 4-merous species. *Nuytsia*, 6: 67-126.
70. The larva of *Neocuris gracilis* Macleay (Coleoptera: Buprestidae). *Zoologischer Anzeiger*, 219: 274-282. (With M.G. Volkovitsh as first author).

1988

71. Daten zur Biologie und Nahrung dreier australischer Dermestidae (Coleoptera). *Entomologische Zeitschrift*, 98: 225-229.
72. Verzeichnis einiger neuer Wirtspflanzen von *Figulus regularis* Westwood

(Coleoptera: Lucanidae). *Entomologische Zeitschrift*, 98: 270-272.

73. Eine Übersicht der Wirtspflanzen des australischen Bockkafers *Aridaeus thoracicus* (Donovan)(Coleoptera: Cerambycidae). *Entomologische Zeitschrift*, 98: 332-334.

74. Notes on the biology and behaviour of the Australian leaf beetle *Cleptor inermis* Lefèvre, 1885 (Coleoptera Chrysomelidae Eumolpinae). *Bulletin & Annales de la Societe Royale Belge d'Entomologie*, 124: 189-194. (With P. Jolivet as second author).

75. A review of larval host records for twelve Australian Buprestidae (Coleoptera). *Giornale Italiano di Entomologia*, 4: 81-88.

76. A survey of the leaf beetles (Coleoptera: Chrysomelidae) from the Townsville district, northern Queensland, Australia. *Giornale Italiano di Entomologia*, 4: 93-112.

77. The food plants of the Australian butterfly *Prosotas felderi* (Murray)(Lepidoptera: Lycaenidae). *Giornale Italiano di Entomologia*, 4: 89-92.

1989

78. New host records for adults of some fungus-feeding beetles (Coleoptera) from New South Wales and Queensland, Australia. *Victorian Naturalist*, 106: 93-95. (This paper was republished as part of paper no. 81 on fungus beetles).

79. Studien zu Biologie und Verhalten des australischen Schildkafers *Hoplionota dorsalis* Waterhouse (Coleoptera: Chrysomelidae). *Entomologische Zeitschrift*, 99: 346-349.

80. Notes on *Diphucephala affinis* associated with flowers of *Hibbertia* and *Acacia* in Western Australia. *Plant Systematics and Evolution*, 168: 1-5.

1990

81. Neue Wirtsangaben für Imagines einiger pilzfressender Käfer (Coleoptera) von New South Wales und Queensland, Australien. *Entomologische Zeitschrift*, 100: 93-98.

82. Parasitism of *Melanitis leda bankia* (Fabricius)(Lepidoptera: Nymphalidae: Satyrinae) by a tachinid fly (Diptera: Tachinidae) in Queensland, Australia. *Bulletin & Annales de la Societe Royale Belge d'Entomologie*, 126: 55-62.

83. Review of the host plants of the Australian longicorn beetle *Chlorophorus curtisi* (Laporte & Gory)(Coleoptera: Cerambycidae). *Koleopterologische Rundschau*, 60: 125-129. (With D. Dauber as second author).

84. The larvae of *Agrilus australasiae* Laporte & Gory and *Ethon affine* Laporte & Gory (Insecta: Coleoptera: Buprestidae). *Spixiana*, 13: 43-59. (With M.G. Volkovitsh as first author).

85. Ein Überblick über die Biologie und Wirtspflanzen des australischen Bockkafers *Batocera boisduvali* (Hope) mit neuen Erkenntnissen über Paarungs- und Eiablageverhalten (Coleoptera: Cerambycidae). *Entomologische Zeitschrift*, 100: 213-218. (With D. Dauber as second author).(An English translation of this paper is presented in paper no. 167).

86. Studien zu Biologie und Verhalten des australischen Russelkafers *Enteles vigorsi* Gyllenhal (Coleoptera: Cerambycidae: Cryptorhynchinae). *Entomologische*

Zeitschrift, 100: 264-267.

87. Eine Übersicht zur Biologie und Wirtspflanzen des australischen Prachtkäfers *Melobasis cuprifera* Laporte & Gory (Coleoptera: Buprestidae). *Entomologische Zeitschrift*, 100: 340-342.

88. Review of the biology and host plants of the Australian longicorn beetle *Phoracantha synonyma* Newman, 1840 (Coleoptera: Cerambycidae). *Entomofauna*, 11: 125-132. (With D. Dauber as second author).

89. Some notes on three species of Australian Reduviidae (Hemiptera). *Victorian Entomologist*, 20: 99-102.

90. A new larval host plant for *Jalmenus daemeli* Semper (Lepidoptera: Lycaenidae) from Queensland. *Victorian Entomologist*, 20: 118.

91. Observations on *Ceresium pachymerum* (Pascoe)(Coleoptera: Cerambycidae) from Papua New Guinea. *Bulletin & Annales de la Societe Royale Belge d'Entomologie*, 126: 131-136. (With D. Dauber as second author).

92. A survey of the jewel beetles (Coleoptera: Buprestidae) from the Townsville district, northern Queensland, Australia. *Giornale Italiano di Entomologia*, 5: 23-30.

93. Notes on the biology and distribution of *Johannica gemellata* (Westwood) (Coleoptera: Chrysomelidae) from the rainforests of south-eastern Queensland. *Victorian Entomologist*, 20: 139-140.

94. Observations on the egg of *Mynes geoffroyi guerini* Wallace (Lepidoptera: Nymphalidae). *Victorian Entomologist*, 20: 148-150.

95. Zur Biologie von *Phlaeoglymna dorsalis* Pascoe (Coleoptera: Curculionidae). *Entomologische Zeitschrift*, 100: 303-305.

96. Notizen zu Biologie und Wirtspflanzen des australischen Käfers *Rhinotia haemoptera* (Kirby)(Coleoptera: Belidae). *Entomologische Zeitschrift*, 100: 444-448.

97. Insect pollination of *Bursaria spinosa* (Pittosporaceae) in the Armidale area, New South Wales, Australia. *Giornale Italiano di Entomologia*, 5: 67-87.

98. Butterflies as possible pollinators of *Bursaria spinosa* Cav. (Pittosporaceae) at Brisbane, Queensland, Australia. *Giornale Italiano di Entomologia*, 5: 89-93.

99. Observations on the biology, host plants and immature stages of *Dihammus tincturatus* Pascoe (Coleoptera: Cerambycidae: Lamiinae) in Papua New Guinea. Part 1. General biology and host plants. *Giornale Italiano di Entomologia*, 5: 95-101.

1991

100. A record of a bite to the human eye from the spider *Arcys lancearius* Koch (Arachnida: Argiopidae). *Victorian Entomologist*, 21: 26-27.

101. Notizen zu Biologie und einer neuen Wirtspflanzen von *Cyphogastra bruijini* Lansberge in Papua-Neuguinea (Coleoptera: Buprestidae: Chalcophorinae). *Entomologische Zeitschrift*, 101: 28-31.

102. Review of an overlooked note on three Australian butterflies by G.A. Waterhouse. *Victorian Entomologist*, 21: 46-47.

103. Additional notes on the jewel beetles (Coleoptera: Buprestidae) from the lower Blue Mountains, New South Wales. *Victorian Entomologist*, 21: 54-60.

104. Review of the history, biology and host plants of the Australian weevil *Chrysolopus spectabilis* (Fabricius)(Coleoptera: Curculionidae: Aterpinae).

Spixiana, 14: 17-25.

105. Review of the biology and host plants of the Australian weevil *Euthyrhinus meditabundus* (Fabricius)(Coleoptera: Curculionidae). *The Entomologist*, 110: 58-65.

106. Beitrag zu Biologie und Wirtspflanzen des australischen Rublers *Belus semipunctatus* (Fabricius)(Coleoptera: Belidae). *Entomologische Zeitschrift*, 101: 104-107.

107. A note on *Trogodendron fasciculatum* Schreibers (Coleoptera: Cleridae). *Victorian Entomologist*, 21: 77-78.

108. Notes on the biology and host plants of *Thevetra latreillei* (Macleay)(Lepidoptera: Sphingidae). *Victorian Entomologist*, 21: 82-85. (A revised version of this paper with photographs is presented as paper no. 163).

109. Some notes on native bees (Chalicodoma: Megachilidae; Hymenoptera) visiting flowers of *Calytrix fraseri* A. Cunn. (Myrtaceae) in Western Australia. *Victorian Entomologist*, 21: 88-91. (A revised version of this paper is presented as paper no. 173).

110. A list and notes on some nocturnally active beetles attracted to street lights at Townsville, north-eastern Queensland. *Victorian Entomologist*, 21: 102-105. (A revised version of this paper with colour photographs is presented as paper no. 153).

111. A note on *Tarsostenus univittatus* (Rossi)(Coleoptera: Cleridae). *Victorian Entomologist*, 21: 108-110.

112. Review of the biology and host plants of the Australian longicorn beetle *Agrianome spinicollis* (Macleay)(Coleoptera: Cerambycidae). *Bulletin & Annales de la Societe Royale Belge d'Entomologie*, 127: 141-146. (With D. Dauber as second author).

113. Some observations on the biology of the Australian butterfly *Acraea andromacha andromacha* (Fabricius)(Lepidoptera, Nymphalidae). *Spixiana*, 14: 301-308.

114. Observations on the biology of *Stethopachys papuana* Gressitt associated with the orchid *Spathoglottis rivularis* Schlect. (Orchidaceae) in Papua New Guinea (Coleoptera, Chrysomelidae, Criocerinae). *Spixiana*, 14: 283-291.

115. Zu Biologie und Wirtspilzen des australischen Pilzkafers *Episcaphula australis* (Boisduval)(Coleoptera: Erotylidae). *Entomologische Zeitschrift*, 101: 263-268.

116. Insect pollination of *Acacia bidwillii* Benth. (Mimosaceae) at Townsville, northern Queensland, Australia. *Giornale Italiano di Entomologia*, 5: 219-238.

117. Review of the biology and host plants of the Australian jewel beetle *Neocuris gracilis* Macleay (Coleoptera: Buprestidae). *Giornale Italiano di Entomologia*, 5: 239-242.

118. Notes on *Spilopyra sumptuosa* Baly (Coleoptera: Chrysomelidae), a spectacular leaf beetle from the rainforests of Queensland and New South Wales. *Victorian Entomologist*, 21: 125-126.

119. Review of the biology and host plants of the Dendrobium Beetle *Stethopachys formosa* Baly (Coleoptera: Chrysomelidae). *Victorian Entomologist*, 21: 129-131. (A revised version of this paper with a colour photograph is presented as paper no. 161).

120. Some preliminary notes on the biology and host plant of *Eurispa vittata* Baly

- (Coleoptera: Chrysomelidae) from north-eastern New South Wales. *Victorian Entomologist*, 21: 132-134.
121. Notes on the jumping spider *Jotus auripes* Koch (Arachnida: Salticidae). *Victorian Entomologist*, 21: 155.
122. Observations on a *Diphucephala* species (Coleoptera: Scarabaeidae) and its feeding relationship with the giant stinging tree, *Dendrocnide excelsa* (Wedd.) Chew (Urticaceae) in Queensland, Australia. *The Entomologist*, 110: 170-177.
123. Notes on the biology of *Leperina cirrosa* Pascoe (Coleoptera: Trogossitidae). *Victorian Entomologist*, 21: 159-161. (A revised version of this paper with one photograph added is presented as paper no. 151).
124. Notes on the jumping spider *Menemerus bracteatus* (Koch)(Arachnida: Salticidae). *Victorian Entomologist*, 21: 156.
125. Zu Biologie und Wirtspflanzen des australischen Blattkäfers *Calomela crassicornis* (Fabricius)(Coleoptera: Chrysomelidae). *Entomologische Zeitschrift*, 101: 250-252.
126. Über einige Wirtspflanzen des australischen Cetoniine *Glycyphana stolata* (Fabricius)(Coleoptera: Scarabaeidae). *Entomologische Zeitschrift*, 101: 302-307.
127. Einige Studien zur Bedeutung australischer Bienen bei der Bestäubung von *Calytrix fraseri*- Blüten (Myrtaceae) in West-Australien (Hymenoptera: Megachilidae: Chalicodoma). *Entomologische Zeitschrift*, 101: 326-329. (A revised English translated version of this paper is presented as paper no. 173).
128. A note on *Ophidius histrio* (Boisduval)(Coleoptera: Elateridae) a click beetle from eastern Australia. *Bulletin of the Amateur Entomological Society*, 50: 235-236.
129. Collection and export of Australian Insects: An analysis of legislative protection and trade to Europe. *Traffic Bulletin*, 12: 41-48. (With D.J. Callister and F. Antram as second and third authors).
130. Review of the biology and host plants of the Australian longicorn beetle *Prosoplus iratus* (Pascoe)(Coleoptera: Cerambycidae). *Bulletin & Annales de la Societe Royale Belge d'Entomologie*, 127: 401-405. (With D. Dauber as second author).

1992

131. A note on the Australian weevil *Zygmaeus angustatus* Lea (Coleoptera: Curculionidae). *Bulletin of the Amateur Entomological Society*, 51: 21-22.
132. *Pristhesancus plagipennis* Walker, a large tropical assassin-bug from Australia (Hemiptera: Reduviidae). *Bulletin of the Amateur Entomological Society*, 51: 22-23.
133. *Chauliognathus nobilitatus* (Erichson), an Australian cantharid beetle (Coleoptera: Cantharidae). *Bulletin of the Amateur Entomological Society*, 51: 24-25.
134. Notes on the jumping spider *Breda jovialis* (Koch)(Arachnida: Salticidae). *Victorian Entomologist*, 22: 4-5.
135. Notes on the sexually dimorphic jumping spider *Bavia ludicra* (Keyserling) (Arachnida: Salticidae). *Victorian Entomologist*, 22: 6-7.
136. Notes on *Stigmodera (Castiarina) decipiens* Westwood (Coleoptera: Buprestidae), a rare jewel beetle from coastal Queensland and New South Wales. *Victorian Entomologist*, 22: 18-20. (A revised version of this paper is presented as

paper no. 172).

137. A new host plant for *Chrysolopus spectabilis* (Fabricius)(Coleoptera: Curculionidae). *Victorian Entomologist*, 22: 42-43.

138. A note on *Lamprima aurata* Latreille (Coleoptera: Lucanidae). *Victorian Entomologist*, 22: 44.

139. Further notes on *Spilopyra sumptuosa* Baly (Coleoptera: Chrysomelidae). *Victorian Entomologist*, 22: 49-50.

140. Review of the biology and host plants of the Australian jewel beetle *Agrius australasiae* Laporte & Gory (Coleoptera: Buprestidae). *Spixiana*, 15: 81-87.

141. *Calothamnus superbus* T.J. Hawkeswood & F.H. Mollemans (Leptospermoideae: Myrtaceae), a new species from south-west Western Australia. *Nuytsia*, 8: 311-318.

142. Notes on a small collection of Lucanidae from northern Papua New Guinea (Insecta, Coleoptera). *Spixiana*, 15: 137-142. (With H. Bomans as second author).

143. Review of the biology, distribution and taxonomic history of *Gnoma boisduvali* Plavilstshikov, a longicorn beetle from the rainforests of Papua New Guinea and Irian Jaya (Insecta, Coleoptera, Cerambycidae, Lamiinae). *Spixiana*, 15: 253-260. (With D. Dauber as second author).

144. Notes on the biology and host plants of the Australian leaf beetle *Lilioceris (Crioceris) nigripes* (Fabricius)(Coleoptera: Chrysomelidae). *The Entomologist*, 111: 210-212.

145. Records of three butterflies feeding from the flowers of the Leichhardt tree, *Nauclea orientalis* (L.) L. (Rubiaceae). *Sydney Basin Naturalist*, 1: 81-82.

146. Review of the biology and host fungi of the Australian fungus beetle, *Episcaphula australis* (Boisduval) (Coleoptera: Erotylidae). *Sydney Basin Naturalist*, 1: 94-96.

147. Notes on two species of *Astia* Koch (Arachnida: Salticidae) from Brisbane, Queensland. *Sydney Basin Naturalist*, 1: 62.

148. Observations on the metallic leaf beetle *Augomela pretiosa* Baly (Coleoptera: Chrysomelidae) from the Townsville area, Queensland. *Sydney Basin Naturalist*, 1: 91-93.

149. Review of the biology and host plants of the Australian jewel beetle, *Melobasis purpurascens* (Fabricius)(Coleoptera: Buprestidae). *Sydney Basin Naturalist*, 1: 51-54.

150. Record of apparent wasp predation on two species of Buprestidae (Coleoptera) from north-eastern New South Wales. *Sydney Basin Naturalist*, 1: 85. (With M. LeBreton as first author).

151. Observations on the biology of the Australian beetle *Leperina cirrosa* Pascoe (Coleoptera: Trogossitidae). *Bulletin & Annales de la Societe Royale Belge d'Entomologie*, 128: 229-233.

152. Beobachtungen an Schmitterlingen in Papua Neuguinea. *Entomologische Zeitschrift*, 102: 294-299.

153. A list and notes on some nocturnally active beetles (Coleoptera) attracted to street lights at Townsville, north-eastern Queensland, Australia. *Giornale Italiano di Entomologia*, 6: 5-8.

154. Review of the biology and host plants of the Australian longicorn beetle *Scolobrotus westwoodi* Hope (Coleoptera: Cerambycidae). *Giornale Italiano di Entomologia*, 6: 53-58.

155. A note on *Cisseis laticollis* Carter (Coleoptera: Buprestidae) from Queensland. *Victorian Entomologist*, 22: 111.
156. *Diphucephala bernhardti* sp. nov. (Coleoptera: Scarabaeidae: Melolonthinae) from heathlands of north-eastern New South Wales, Australia and its association with *Hibbertia* flowers (Dilleniaceae). *Giornale Italiano di Entomologia*, 6: 109-117.
157. Some notes on the general biology and adult emergence of *Ogyris genoveva genoveva* Hewitson (Lepidoptera: Lycaenidae). *Giornale Italiano di Entomologia*, 6: 161-168. (With J.R. Turner as first author).
158. Review of the biology and host-plants of *Ethon fissiceps* (Kirby) and other *Ethon* species (Coleoptera: Buprestidae). *Giornale Italiano di Entomologia*, 6: 169-174. (With J.R. Turner as second author).
159. Description of a new species of *Xylotrechus* Chevrolat, and notes on the synonymy of some other *Xylotrechus* species (Coleoptera: Cerambycidae: Cerambycinae). *Giornale Italiano di Entomologia*, 6: 195-198. (With D. Dauber as first author).
160. Review of the biology, host plants and immature stages of the Australian Cerambycidae (Coleoptera) Part 1. Parandrinae and Prioninae. *Giornale Italiano di Entomologia*, 6: 207-224.
161. Review of the biology and host plants of the Dendrobium beetle, *Stethopachys formosa* Baly (Coleoptera: Chrysomelidae: Criocerinae) from Australia. *Giornale Italiano di Entomologia*, 6: 225-228.

1993

162. The larvae of *Anilara antiqua* Thèry and *Anilara nigrita* Kerremans (Insecta, Coleoptera, Buprestidae). *Spixiana*, 16: 157-167. (With M.G. Volkovitsh as first author).
163. Notes on the biology and food plants of the Australian hawk moth *Theretra latreillii* (Macleay)(Lepidoptera: Sphingidae). *The Entomologist*, 112: 161-165.
164. The zoological observations made by Ernest Giles during two of his expeditions (1872-1874). *Sydney Basin Naturalist*, 2: 1-12.
165. A list and notes on some butterflies (Lepidoptera) from the Hill End district, New South Wales. *Sydney Basin Naturalist*, 2: 15-16. (With J.R. Turner as first author).
166. Notes on *Copodita interrupta* Lea (Coleoptera: Oedemeridae). *Sydney Basin Naturalist*, 2: 23-24.
167. A review of the biology and host plants of the Australian longicorn beetle, *Batocera boisduvali* (Hope) with new data on mating and egg-laying behaviour. *Sydney Basin Naturalist*, 2: 31-34. (With D. Dauber as second author).
168. Notes on some Coleoptera collected from the foliage of *Gahnia erythrocarpa* R.Br. (Cyperaceae) in north-eastern New South Wales. *Sydney Basin Naturalist*, 2: 35-36. (With M. LeBreton as first author).
169. Some adult host plants of the Australian cetoniid beetle *Glycyphana stolata* (Fabricius)(Coleoptera: Scarabaeidae: Cetoniinae). *Sydney Basin Naturalist*, 2: 37-39.
170. Observations on *Pelororrhinus interstitialis* Lea (Coleoptera: Curculionidae). *Sydney Basin Naturalist*, 2: 17-20. (With M. LeBreton as second author).
171. A new larval host plant for the Botany Bay Diamond Beetle, *Chrysolopus*

spectabilis (Fabricius)(Coleoptera: Curculionidae). *Sydney Basin Naturalist*, 2: 43-44.

172. Notes on *Stigmodera* (*Castiarina*) *decepiens* Westwood, (Coleoptera: Buprestidae), a rare jewel beetle from coastal Queensland and New South Wales, Australia. *The Entomologist*, 112: 34-36.

173. Some notes on native bees (Hymenoptera: Megachilidae: *Chalicodoma*) visiting the flowers of *Calytrix fraseri* A. Cunn. (Myrtaceae) in Western Australia. *Giornale Italiano di Entomologia*, 6: 235-237.

174. Observations on insect pollination of *Melaleuca lanceolata* Otto and *Verticordia picta* Endl. (Myrtaceae), *Leucopogon parviflorus* (Andr.) Lindl. (Epacridaceae) and *Eryngium pinnatifidum* Bunge (Apiaceae) in Western Australia. *Giornale Italiano di Entomologia*, 6: 239-242.

175. Observations on the biology and host plants of the Australian longicorn beetle, *Thyada barbicornis* (Pascoe)(Coleoptera: Cerambycidae: Lamiinae). *Giornale Italiano di Entomologia*, 6: 309-312. (With D. Dauber as second author).

176. Review of the biology, host plants and immature stages of the Australian Cerambycidae. Part 2. Cerambycinae (Tribes Oemini, Cerambycini, Hesperophanini, Callidiopini, Neostenini, Aphanasiini, Phlyctaenodini, Tessarommatini and Piesarthrini). *Giornale Italiano di Entomologia*, 6: 313-355.

177. A list and notes on some Buprestidae (Coleoptera) from the Armidale area, New South Wales, Australia. *Giornale Italiano di Entomologia*, 6: 437-447.

178. Observations on *Coraebus cupricollis* H. Deyrolle (Coleoptera: Buprestidae), a fly-mimicking beetle from Papua New Guinea *Giornale Italiano di Entomologia*, 6: 455-458. (With J.R. Turner as second author).

1994

179. Review of the biology and host plants of Australian Chrysomelidae (Coleoptera) associated with *Acacia* (Mimosaceae). Chapter 12 (pp. 191-204). In: P. Jolivet, M.L. Cox & E. Petitpierre (Eds.) *Novel Aspects of the Biology of Chrysomelidae*. Kluwer Academic Publishers, Dordrecht, The Netherlands.

180. New host plant records for some Australian Alticinae (Coleoptera: Chrysomelidae). *Spixiana*, 17: 43-49. (With D.G. Furth as second author).

181. A record of *Temognatha* (*Temognatha*) *vitticollis* (Macleay) (Coleoptera: Buprestidae) from Penrith, New South Wales, Australia. *Jewel Beetles*, 3: 10-13. (With J.R. Turner as first author).

182. A note on the biology and behaviour of *Agrilus occipitalis* Eschscholtz (Coleoptera: Buprestidae) in Papua New Guinea. *Jewel Beetles*, 3: 14-18. (With J.R. Turner as second author).

183. The biology and host plants of the Australian weevil *Rhinotia haemoptera* (Kirby) (Insecta, Coleoptera, Belidae). *Spixiana*, 17: 237-245. (With J.R. Turner and M. LeBreton as second and third authors).

184. Observations on the biology and host plants of the Australian longicorn beetle, *Ceresium seminigrum* Aurivillius (Coleoptera: Cerambycidae). *Giornale Italiano di Entomologia*, 7: 5-10.

185. The larva of *Melobasis* (*Melobasis*) *vertebralis* Carter (Coleoptera: Buprestidae). *Giornale Italiano di Entomologia*, 7: 11-27. (With M.G. Volkovitsh as first author).

186. Observations on some Buprestidae (Coleoptera) from the Kanangra-Boyd area, New South Wales, Australia. *Giornale Italiano di Entomologia*, 7: 41-48. (With J.R. Turner as senior author).
187. Notes on the Australian ladybird beetle *Micraspis frenata* (Erichson)(Coleoptera: Coccinellidae) feeding on nectar from *Asclepias* and *Gomphocarpus* flowers (Asclepiadaceae). *Giornale Italiano di Entomologia*, 7: 67-71.
188. Observations on the biology and host plants of *Dinocephalia cyaneipennis* (Blackburn)(Coleoptera: Buprestidae) from New South Wales, Australia. *Giornale Italiano di Entomologia*, 7: 87-96. (With J.R. Turner as first author).
189. A note on the larval host plant and biology of *Melobasis apicalis* Macleay (Coleoptera: Buprestidae) from Australia. *Giornale Italiano di Entomologia*, 7: 97-102. (With J.R. Turner as first author).
190. A new species of the genus *Ethon* Laporte & Gory, with observations on its biology and host plants (Coleoptera: Buprestidae). *Giornale Italiano di Entomologia*, 7: 165-179. (With J.R. Turner as second author).

1995

191. Notes on some leaf beetles from the Passam area, East Sepik Province, and Port Moresby area, Central Province, Papua New Guinea (Insecta, Coleoptera, Chrysomelidae). *Spixiana*, 18: 165-176. (With G.A. Samuelson as second author).
192. *Host-Plants of Chrysomelidae of the World. (An essay about the relationships between the leaf-beetles and their food plants)*. Backhuys Publishers, Leiden: 1-281. (With P.H. Jolivet as first author).
193. A note on the biology and host plant of *Cisseis* sp. near *C. nitidiventris* Carter (Coleoptera: Buprestidae) from Australia. *Mauritiana*, 15: 313-316. (With J.R. Turner as first author).
194. A new larval host plant for the Australian jewel beetle *Ethon fissiceps* (Kirby) (Coleoptera: Buprestidae). *Mauritiana*, 15: 317-319. (With J.R. Turner as first author).
195. A note on *Nascio vetusta* (Boisduval)(Coleoptera: Buprestidae) from Australia. *Mauritiana*, 15: 321-325. (With J.R. Turner as first author).
196. A note on the larval host plant and biology of *Melobasis nervosa* (Boisduval) (Coleoptera: Buprestidae) from Australia. *Giornale Italiano di Entomologia*, 7: 257-260. (With J.R. Turner as first author).
197. A new larval host plant for *Melobasis apicalis* Macleay and *M. cupriceps* (Kirby) (Coleoptera: Buprestidae) from Australia. *Giornale Italiano di Entomologia*, 7: 261-264. (With J.R. Turner as first author).
198. A new larval host plant and other biological data for the Australian jewel beetle *Cisseis aceducta* (Kirby)(Coleoptera: Buprestidae) *Giornale Italiano di Entomologia*, 7: 273-277. (With J.R. Turner as first author).
199. A new species of the genus *Chrysobothris* Eschscholtz (Coleoptera: Buprestidae) from Australia. *Giornale Italiano di Entomologia*, 7: 345-349.
200. Notes on *Copodita interrupta* Lea (Coleoptera: Oedemeridae) from Australia. *Giornale Italiano di Entomologia*, 7: 389-391.

1996

201. Further notes on the biology and food plants of the Australian belid weevil, *Rhinotia haemoptera* Kirby (Insecta, Coleoptera, Belidae). *Spixiana*, 19: 183-186. (With J.R. Turner as second author).
202. A record of a bite to a human arm from a species of *Opisthoncus* (Arachnida: Salticidae) in Australia. *Mauritiana*, 16: 37-39.
203. A note on the larval host plant and biology of the Australian jewel beetle *Astraeus crassus* Van de Poll (Coleoptera: Buprestidae). *Mauritiana*, 16: 75-79. (With J.R. Turner as first author).
204. A note on the larval host plants and biology of *Melobasis cupriceps* (Kirby) (Coleoptera: Buprestidae) from Australia. *Mauritiana*, 16: 81-86. (With J.R. Turner as first author).
205. Review of the biology and host plants of the Australian longicorn beetle *Amphirhoe decora* Newman (Coleoptera: Cerambycidae). *Mauritiana*, 16: 87-90. (With J.R. Turner as second author).
206. A note on the biology and host plants of the Australian longicorn beetle *Notoceresium elongatum* McKeown (Coleoptera: Cerambycidae). *Mauritiana*, 16: 91-94. (With J.R. Turner as second author).
207. A new larval host plant for the Australian buprestid beetle, *Agrilus australasiae* Laporte & Gory (Coleoptera: Buprestidae). *Mauritiana*, 16: 95-100. (With J.R. Turner as first author).
208. Taxonomy, biology, geographic distribution and conservation of the rare Australian jewel beetle, *Stigmodera (Castiarina) armata* Thomson (Coleoptera: Buprestidae). *Giornale Italiano di Entomologia*, 8: 191-206. (With J.R. Turner as first author).
209. Comment on Book Review. *Australian Journal of Entomology*, 35: 208, 222.

1997

210. The taxonomy, biology and distribution of the Australian jewel beetle *Chrysobothris saundersi* Macleay (Insecta: Coleoptera: Buprestidae). *Spixiana*, 20: 141-149. (With J.R. Turner as second author).
211. A new fungal host for *Episcaphula australis* (Boisduval), *E. pictipennis* Crotch and *Thallis compta* Erichson, with a review of the fungal host records for the Australian Erotylidae (Coleoptera). *Mauritiana*, 16: 307-312. (With J.R. Turner as second author and R.W. Wells as third author).
212. *Acacia spectabilis* A. Cunn. ex Benth. (Mimosaceae), a new larval host plant for *Agrilus australasiae* Laporte & Gory (Coleoptera: Buprestidae) from Australia. *Mauritiana*, 16: 313-315. (With J.R. Turner as second author).
213. Further observations on the biology and host plants of the Australian longicorn beetle *Agrianome spinicollis* (Macleay)(Coleoptera: Cerambycidae). *Mauritiana*, 16: 327-332. (With J.R. Turner and R.W. Wells as second and third authors).
214. Observations on the biology and host plants of the Australian tortoise beetle, *Cassida compuncta* (Boheman), with a description of the larva, pupa and adult (Insecta: Coleoptera: Chrysomelidae). *Mauritiana*, 16: 333-339. (With H. Takizawa as second author and P. Jolivet as third author).

215. Review of the biology, host plants, behaviour and parasites of the Australian buprestid beetle, *Diadoxus erythrurus* (White)(Coleoptera: Buprestidae). *Mauritiana*, 16: 341-349. (With J.R. Turner as second author).
216. Taxonomy, ecology and descriptions of the larva, pupa and adult of the Australian hispine beetle, *Euryspa vittata* Baly (Insecta, Coleoptera, Chrysomelidae). *Spixiana*, 20: 245-253. (With H. Takizawa as second author).
217. Review of the biology and larval host plants of the Australian longicorn beetle, *Tessaromma undatum* Newman (Coleoptera: Cerambycidae). *Giornale Italiano di Entomologia*, 8: 335-339. (With J.R. Turner as second author).
218. Review of the taxonomy, biology and host plants of the Australian longicorn beetle, *Aridaeus thoracicus* (Donovan)(Coleoptera: Cerambycidae). *Giornale Italiano di Entomologia*, 8: 327-334. (With J.R. Turner as second author).
219. A biological note on the rare Australian longicorn beetle, *Paressius viridipennis* Aurivillius (Coleoptera: Cerambycidae: Lamiinae). *Giornale Italiano di Entomologia*, 8: 341-342.
220. A further larval host plant and notes on the biology of the Australian jewel beetle, *Nascio vetusta* (Boisduval)(Coleoptera: Buprestidae). *Giornale Italiano di Entomologia*, 8: 323-326. (With J.R. Turner as first author).

1999

221. The larva of *Prospheres aurantiopicta* (Laporte Gory)(Coleoptera: Buprestidae), with comments on the larval characteristics of Polycestoid taxa (Insecta, Coleoptera, Buprestidae). *Mauritiana*, 17: 295-314. (With M.G. Volkovitsh as senior author).

2000

222. Some notes on the occurrence of the Australian beetle, *Rhipicerca femorata* (Kirby)(Coleoptera: Rhipiceridae). *Mauritiana*, 17: 414-417.

2001

223. A note on the larval host plant of a *Cnemoplites* species (Coleoptera: Cerambycidae: Prioninae) from Australia. *Mauritiana*, 18: 109-112. (With J.R. Turner as first author).
224. Some notes on the biology and toxic properties of *Arthropterus westwoodi* Macleay (Coleoptera: Carabidae) from Australia. *Mauritiana*, 18: 113-115.
225. Notes on some snakes (Reptilia, Squamata) of the Hastings Point area, north-eastern New South Wales, Australia. *Mauritiana*, 18: 123-127.
226. Some notes on the biology and host plants of some Chrysomelidae (Coleoptera) from Australia. *Entomologische Zeitschrift*, 111: 279-282. (With P. Jolivet as second author).
227. Biological notes and host plants of some Papua New Guinean longicorn beetles (Coleoptera: Cerambycidae). *Entomologische Zeitschrift*, 111: 312-315. (With D. Dauber as second author).
228. A new larval host record for *Lamprima aurata* (Latreille, 1817)(Coleoptera: Lucanidae) from Australia *Entomologische Zeitschrift*, 111: 333-334.

229. Notes on *Paratesta dorsalis* (Pascoe, 1864)(Coleoptera: Cerambycidae) from Australia. *Entomologische Zeitschrift*, 111: 347-348.
230. A new larval host plant for the Australian longicorn beetle *Adrium artifex* (Newman, 1842)(Coleoptera: Cerambycidae). *Entomologische Zeitschrift*, 111: 354-355. (With J.R. Turner as first author).

2002

231. Notes on the biology, distribution and host plants of *Oides circumdata* (Baly, 1861) and *Oides fryi* Clark, 1864 (Coleoptera: Chrysomelidae) from the rainforests of south-eastern Queensland, Australia. *Entomologische Zeitschrift*, 112: 51-52. (With P. Jolivet as second author).
232. Review of the biology and host plants of the Australian longicorn beetle *Uracanthus triangularis* (Hope, 1833)(Coleoptera: Cerambycidae). *Entomologische Zeitschrift*, 112: 59-62.
233. Notes on the biology and host plants of the Australian leaf beetle *Podagrira submetallica* (Blackburn) (Coleoptera: Chrysomelidae: Alticinae). *Journal of the Entomological Research Society*, 4: 5-10. (With P. Jolivet as second author).
234. New adult host plant records for *Glycyphana stolata* (Fabricius, 1781)(Coleoptera: Scarabaeidae: Cetoniinae) from Australia. *Entomologische Zeitschrift*, 112: 179-180.
235. Mimicry of host plant fruits by adults of the Australian leaf beetle *Procrisina pictipennis* (Boheman)(Coleoptera: Chrysomelidae). *Mauritiana*, 18: 239-243.
236. Taxonomy, biology and host plant of the Australian leaf beetle *Stethomela submetallica* Baly (Coleoptera: Chrysomelidae) from the wet forests of north-eastern New South Wales, Australia, with descriptions of the egg, larva and adult. *Mauritiana*, 18: 245-249.(With H. Takizawa as second author).
237. Review of some aspects of the biology and host plants of *Repsimus aeneus* (Fabricius)(Coleoptera: Scarabaeidae). *Giornale Italiano di Entomologia*, 10: 99-102. (With J.R. Turner as second author).
238. Two new larval host plants and notes on the biology and habitat of the Australian longicorn beetle, *Agrianome spinicollis* (Macleay)(Coleoptera: Cerambycidae: Prioninae). *Giornale Italiano di Entomologia*, 10: 103-105.
239. Observations on the Australian weevil *Pelororrhinus interstitialis* Lea (Coleoptera: Curculionidae). *Giornale Italiano di Entomologia*, 10: 107-111.
240. The entomological and arachnological observations made by the famous explorer of the Nineteenth Century, Ernest Giles, during his five expeditions through the deserts of Western and South Australia (1872-1876). *Giornale Italiano di Entomologia*, 10: 113-122. (With J.R. Turner as second author).
241. The conservation and ecological importance of a butterfly hill-topping site at East Killara, New South Wales, Australia, *Spilopyra*, 1: 1-16.
242. Notes on *Belionota prasina* (Thunberg, 1789) (Coleoptera: Buprestidae) from Cebu Island, central Philippines, south-east Asia. *Spilopyra*, 2: 1-3.
243. Notes on *Lingana illita* (Candeze, 1863)(Coleoptera: Elateridae) from Australia. *Spilopyra*, 3: 1-4.(With J.R. Turner as first author).
244. Observations on pollination of various heathland plants by *Metriorrhynchus rhipidius* (Macleay)(Coleoptera: Lycidae) in eastern New South Wales, Australia, with a review of some feeding records for *Metriorrhynchus*. *Journal of the*

Entomological Research Society, 4: 1-6.

245. Observations on the adults of *Micraspis frenata* (Erichson, 1842) (Coleoptera: Coccinellidae) feeding on the pollen of native and non-native grasses (Poaceae) in eastern New South Wales, Australia. (With J.R. Turner as second author). *Journal of the Entomological Research Society*, 4: 21-29.

246. A review of the biology and host plants of Australian Buprestidae (Coleoptera) known to breed in *Eucalyptus* species (Myrtaceae). *Journal of the Entomological Research Society*, 4: 31-58.

2003

247. Some notes on the biology, host plants and occurrence of the Australian lagriid beetle *Ecnolagria grandis* (Gyllenhal, 1817) (Coleoptera: Lagriidae). *Spilopyra*, 4:1-3. (With J.R. Turner as second author).

248. Notes on the food plants of two species of Lygaeidae (Hemiptera), *Graptostethus servus* (Fabricius, 1787) and *Spilostethus hospes* (Fabricius, 1794) in Australia. *Spilopyra*, 5: 1-3.

249. Observations on the Australian bug *Scutiphora pedicillata* (Kirby, 1818)(Hemiptera: Scutellaridae) feeding on the fruits of *Dodonaea triquetra* Wendl. (Sapindaceae). *Spilopyra*, 6: 1-4. (With J.R. Turner as second author).

250. Some notes on the biology and a new host plant of *Cyphogastra bruijni* Lansberge (Coleoptera: Buprestidae) in Papua New Guinea. *Spilopyra*, 7: 1-4.

251. Comments on the entry for *Jalmenus daemeli* Semper (1879) (Lepidoptera: Lycaenidae) in Braby (2000) *Butterflies of Australia*. *Spilopyra*, 8: 1-4.

252. A review of the biology and host plants of the Hispinae and Cassidinae (Coleoptera: Chrysomelidae) of Australia. Chapter 15. In: *Special topics in leaf beetle biology*. Furth, D. (Ed). Proceedings of the Fifth International Symposium on the Chrysomelidae, 25-27 August, Iguassu Falls, Brazil XXI International Congress of Entomology, Pensoft Series Faunistica 29: 183-199.

253. Notes on the biology and host plants of the Australian leaf beetle *Podagrira submetallica* (Blackburn)(Coleoptera: Chrysomelidae: Alticinae). Chapter 17. In: *Special topics in leaf beetle biology*. Furth, D. (Ed). Proceedings of the Fifth International Symposium on the Chrysomelidae, 25-27 August, Iguassu Falls, Brazil XXI International Congress of Entomology, Pensoft Series Faunistica 29: 209-212. (With P. Jolivet as second author).

254. On the use of anatomy in the understanding of phylogeny and taxonomy of plants and precautions needed to be considered when drawing conclusions from anatomical investigations. *Spilopyra*, 9: 1-8.

255. A new larval host plant for the Australian longicorn beetle, *Agrianome spinicollis* (Macleay, 1827)(Coleoptera: Cerambycidae: Prioninae). *Entomologische Zeitschrift*, 113: 142-144.

256. Notes on the Australian longicorn beetle *Paroplites australis* (Erichson, 1842)(Coleoptera: Cerambycidae) with a new record from the Sydney district, New South Wales, Australia. *Entomologische Zeitschrift*, 113: 270-271. (With J.R. Turner as second author).

257. Coleman (1964), an overlooked paper describing the life history of the Australian butterfly *Anthene lycaenoides godeffroyi* (Semper, 1879)(Lepidoptera: Lycaenidae). *Spilopyra*, 10: 1-4.

258. Notes on the biology and host plants of *Bethelium* Pascoe, 1866 (Coleoptera: Cerambycidae) from Australia. *Spilopyra*, 12: 1-3.
259. Redescription of the adult of *Anilara convexa* Kerremans, 1898 (Coleoptera: Buprestidae) from Australia, with observations on its biology and larval host plant. *Giornale Italiano di Entomologia*, 10: 219-226. (With J.R. Turner as second author).
260. Observations on the habitat and an apparently new larval host plant of *Phalaenoides glycinae* (Lewin, 1805)(Lepidoptera: Noctuidae: Agaristinae) in the Sydney district, New South Wales, Australia. *Spilopyra*, 13: 1-7. (With J.R. Turner as second author).
261. Notes on the biology and food items of three Australian Dermestidae (Coleoptera). *Calodema*, 1: 1-4.
262. Comments on the paper by C.A.M. Reid entitled "New records of the genus *Stenus* Latreille (Coleoptera: Staphylinidae) in Australia". *Calodema*, 1: 5-6.
263. New host records for adults of some fungus-feeding beetles (Coleoptera) from New South Wales and Queensland, Australia. *Calodema*, 1: 7-11.
264. Book Review: "Fossils, Finches and Fuegians: Charles Darwin's Adventures and Discoveries on the Beagle, 1832-1836" by Richard Keynes (2003). *Calodema*, 1: 12.
265. A late occurrence of the Australian cetonid beetle, *Polystigma punctata* (Donovan)(Coleoptera: Scarabaeidae; Cetoniinae) and comments on the late-flowering of its food plant, *Bursaria spinosa* Cav. (Pittosporaceae) in the Sydney area, New South Wales, Australia. *Calodema*, 1: 13-14. (With J.R. Turner as second author).
266. *Melobasis jacquelinae* sp. nov. (Coleoptera, Buprestidae), a new jewel beetle from the Sydney Basin, New South Wales, Australia, with observations on its biology, larva and host plants. *Calodema*, 1: 15-21. (With J.R. Turner as first author).
267. Further observations on the feeding of adult *Micraspis frenata* (Erichson, 1842) (Coleoptera: Coccinellidae) on the pollen of grasses (Poaceae) in New South Wales, Australia. *Calodema*, 1: 22-23. (With J.R. Turner as first author).
268. Froggatt (1903), an overlooked note on the biology and distribution of *Diadoxus erythrurus* (White, 1846)(Coleoptera: Buprestidae). *Calodema*, 1: 24. (With J.R. Turner as second author).
269. Insect collecting experiences in Papua New Guinea- Butterflies (Lepidoptera). *Calodema*, 1: 25-29
270. Anon. (1934), an overlooked publication on Australian insects, with particular reference to *Agrianome spinicollis* (Macleay, 1827)(Coleoptera: Cerambycidae). *Calodema*, 1: 30-31. (With J.R. Turner as second author).
271. Observations on the biology and host plants of the Australian flea beetle, *Halticorcus platycerii* Lea, 1917 (Coleoptera: Chrysomelidae: Alticinae). *Calodema*, 1: 31-34.
272. Some notes on the conservation, biology and distribution of the rare Australian plant *Lissanthe sapida* R.Br. (Epacridaceae). *Calodema*, 1: 35-36.
273. *Spiders of Australia: An Introduction to their Classification, Biology and Distribution*. Pensoft Publishers, Sofia and Moscow: 1-264.
274. Biological notes and host plants of some Papua New Guinean longicorn beetles (Insecta: Coleoptera: Cerambycidae). *Mauritiana*, 18: 415-420. (With D.

Dauber as second author).

275. The first larval host plant record for *Curis caloptera* (Boisduval, 1835)(Coleoptera: Buprestidae) with notes on the biology and larval host plants of other species of *Curis* Laporte & Gory from Australia. *Mauritiana*, 18: 421-426. (With J.R. Turner as second author).

2004

276. A brief investigation into the benthic macroinvertebrate fauna of one section of the Murrumbidgee River, New South Wales, Australia, using kick, net and surber sampling methods. *Calodema*, 2: 1-5.

277. Jewel beetles (Coleoptera: Buprestidae) from the Lake Magenta and the East Hyden districts, Western Australia. *Calodema*, 2: 6-7. (With M. Peterson as second author).

278. Observations on *Metriorrhynchus rhipidius* (Macleay) (Coleoptera: Lycidae) feeding on nectar from the flowers of *Leucopogon muticus* R.Br. (Epacridaceae) at Kenthurst, New South Wales, Australia. *Calodema*, 2: 8-10. (With J.R. Turner as second author).

279. Observations on *Ctenotus robustus* Storr (Reptilia: Scincidae) in the Hastings Point area, north-eastern New South Wales, Australia. *Calodema*, 2: 27-28.

280. An account of an unpleasant personal experience with the refereeing process associated with the *Australian Journal of Botany*, a CSIRO/Australian Government funded research journal. *Calodema*, 2: 29-32.

281. Observations on the habitat and an apparently new larval host plant of *Phalaenoides glycinae* (Lewin, 1805)(Lepidoptera: Noctuidae: Agaristinae) in the Sydney district, New South Wales, Australia. *Giornale Italiano di Entomologia*, 11: 151-156. (With J.R. Turner as second author).

282. Notes on the host plants of *Bethelium* Pascoe, 1866 (Coleoptera: Cerambycidae) from Australia. *Giornale Italiano di Entomologia*, 11: 157-158.

283. *Cydippa balyi* Chapuis, 1875 (Coleoptera, Chrysomelidae), an interesting galerucine from Australia rediscovered in the Northern Territory, with redescription and notes on its habitat and host plant. In: Jolivet, P.H., Santiago-Blay, J.H. & Schmitt, M. (eds). *New Developments in the Biology of Chrysomelidae*: 469-473 (With R. Beenen as senior author).

2005

284. Comments on the paper by Schmidt and Noyes (2003) on egg parasitoids of *Agrianome spinicollis* (Macleay)(Coleoptera: Cerambycidae) in the *Australian Journal of Entomology* (2003). *Calodema*, 3: 1-2.

285. Review of the biology and host-plants of the Australian jewel beetle *Julodimorpha bakewelli* (White, 1859)(Coleoptera: Buprestidae). *Calodema*: 3: 3-5.

286. *Rhadinothamnus anceps* (DC.) P.G. Wilson (Rutaceae) the adult host plant of *Melobasis wannerua* Carter, 1936 (Coleoptera: Buprestidae). *Calodema*, 3: 14-15.

287. Hamilton (1937), an overlooked reference concerning three Australian butterfly species (Lepidoptera). *Calodema*, 3: 16-18.

288. Observations on the rare plant *Zieria involuocrata* R.Br. ex Benth. (Rutaceae) in

- the Lower Portland area, New South Wales, Australia. *Calodema*, 4: 5-9.
289. A new record of parasitism of the introduced London Plane Tree, *Platanus acerifolia* (Aiton) Willd. (Platanaceae) by the Australian native mistletoe, *Dendrophthoe vitellina* (F.Muell.) Tieghem (Loranthaceae). *Calodema*, 4: 15-16.
290. A new larval host plant for *Pseudanilara cupripes* (Macleay, 1872) (Coleoptera: Buprestidae) from the Sydney district, New South Wales, Australia. *Calodema*, 4: 17-18.
291. Three new host plants for the Australian leaf beetle *Podagrira submetallica* (Blackburn, 1894) (Coleoptera: Chrysomelidae: Alticinae). *Calodema*, 4: 19-22.
292. Record of the mistletoe *Muellerina celastroides* (Sieb. ex Schulles) Tieghem (Loranthaceae) parasitising a pear tree (*Pyrus malus* L., Rosaceae) at Faulconbridge, New South Wales, Australia. *Calodema*, 4: 23-24.

2006

293. Review of the biology of the Australian genus *Xyrosclis* Saunders, 1868 (Coleoptera: Buprestidae). *Calodema*, 5: 1-2.
294. Review of the biology of *Prospheres aurantiopictus* (Laporte & Gory, 1837) (Coleoptera: Buprestidae). *Calodema*, 5: 3-4.
295. Review of the biology of *Melobasis purpurascens* (Fabricius, 1801) (Coleoptera: Buprestidae). *Calodema*, 5: 5-8.
296. Review of the biology of the Australian genus *Pseudotaenia* Kerremans, 1903 (Coleoptera: Buprestidae). *Calodema*, 5: 19-23.
297. Description of the pupa of *Ryssonotus nebulosus* (Kirby, 1818) (Coleoptera: Lucanidae) with a review of biology of adults and notes on larval host plants. *Calodema*, 6: 1-2.
298. Some notes and a review on *Hololepta lissopyga* Marseul, 1853 (Coleoptera: Histeridae). *Calodema*, 6: 3.
299. Review of the biology and host plants of the Australian buprestid beetle *Temognatha maculiventris* (Macleay, 1863) (Coleoptera: Buprestidae). *Calodema*, 6: 4.
300. Review of the biology and host plants of the Australian buprestid beetle *Temognatha alternata* (Lumholtz, 1889) (Coleoptera: Buprestidae). *Calodema*, 6: 3.
301. Some lizards (Reptilia) and frogs (Amphibia) observed within a portion of Cattai Creek, Kellyville, New South Wales, Australia. *Calodema*, 6: 35-37.
302. Comments on the orchid pollination review paper by P.B. Adams and S.D. Lawson (1993) in the *Australian Journal of Botany* and a listing of some more recent literature. *Calodema*, 7: 1-4.
303. Review of the biology and host plants of the Australian buprestid beetle *Calodema regale* (Gory & Laporte, 1838) (Coleoptera: Buprestidae). *Calodema*, 7: 5.
304. Review of literature and the biology of the Australian Ceratocanthidae (Insecta: Coleoptera). *Calodema*, 7: 8-11.
305. Niche partitioning exhibited by six native frog species (Anura: Hylidae and Myobatrachidae) in a sandstone habitat in north-western Sydney, New South Wales, Australia. *Calodema*, 7: 17-22.
306. A record of *Amanita muscaria* (L.) Lam. (Basidiomycetes: Amanitaceae) from Wentworth Falls, New South Wales, Australia with a review of some literature on

the species within Australia. *Calodema*, 7: 29-31.

307. Effects of envenomation to a human arm by the larva of an unidentified species of *Myrmeleon* (Neuroptera: Myrmeleonidae). *Calodema*, 7: 32-33.

308. Notes on *Agape chloropyga* (Walker, 1854)(Lepidoptera: Aganinae) from Queensland, Australia. *Calodema*, 7: 34-35.

309. Review of the biology of the Australian genus *Paracephala* Saunders, 1868 (Coleoptera: Buprestidae). *Calodema*, 8: 1-2.

310. Review of the biology of the Australian genus *Meliboeithon* Obenberger, 1920 (Coleoptera: Buprestidae). *Calodema*, 8: 3-4.

311. Review of the biology of the Australian genus *Hypocisseis* Thomson, 1879 (Coleoptera: Buprestidae). *Calodema*, 8 :5-6.

312. Book Review: Bellamy, C.L. (2003). *Zoological Catalogue of Australia 29.5. Coleoptera: Buprestoidea*. CSIRO Publishing, Collingwood, Victoria. *Calodema*, 8: 29-32.

313. Record of the Pied Currawong (*Strepera graculina*, Cracticidae) feeding on seeds of *Brachychiton acerifolius* (A. Cunn. ex Loud.) F. Muell. (Sterculiaceae) in a suburban backyard at Beecroft, New South Wales, Australia. *Calodema*, 8: 37-38 (with A. Morison as first author).

314. Review of literature and the biology of the Australian family Rhinorhipidae (Insecta: Coleoptera). *Calodema*, 8: 39-41.

315. Review of the biology of four Australian species of the genus *Chrysobothris* Eschscholtz, 1829 (Coleoptera: Buprestidae). *Calodema*, 8: 42-44.

2007

316. Observations on the colour pattern and mimicry of *Aproidea balyi* Pascoe, 1863 (Coleoptera: Chrysomelidae: Hispinae) with new locality records and comments on the revisionary paper of G.A Samuelson in the *Memoirs of the Queensland Museum* (1989). *Calodema Supplementary Paper No. 2*: 1-5.

317. Observations on mating behaviour in the Australian longicorn beetle *Amphirhoe decora* Newman, 1840 (Coleoptera: Cerambycidae). *Calodema Supplementary Paper No. 3*: 1-7. (with N. Monaghan as first author).

318. Review of the biology of two Australian species of the genus *Habroloma* Thomson, 1864 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 4*: 1-2.

319. Review of the biology of the genus *Anilara* Saunders, 1868 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 5*: 1-5.

320. Notes on the biology of *Castiarina guttaticollis* (Blackburn, 1890)(Coleoptera: Buprestidae), with a new distribution record and comments on this species in S. Barker (2006) - *Castiarina: Australia's Richest Jewel Beetle Genus*. *Calodema Supplementary Paper No. 6*: 1-2.

321. Notes on the biology and host plants of the Australian leaf beetle *Calomela pallida* (Baly, 1856)(Coleoptera: Chrysomelidae), with a colour description of the live adult. *Calodema Supplementary Paper No. 8*: 1-3. (with N. Monaghan as second author).

322. *Petersonia* gen. nov. (Coleoptera: Buprestidae) from Papua New Guinea and a redescription of *Petersonia shelleybarkeri* (Nylander, 2006). *Calodema Supplementary Paper No. 9*: 1-5.

323. Studies in the genus *Calothamnus* (Myrtaceae: Leptospermoideae): Redescription of *Calothamnus chrysantherus* F. Muell., with notes on distribution, habitat and conservation and a list of collection records. *Calodema Supplementary Paper No. 11*: 1-7.
324. New host plants for *Calomela crassicornis* (Fabricius, 1775) and *Calomela ioptera* (Baly, 1856)(Coleoptera: Chrysomelidae), with notes on two other *Calomela* species. *Calodema Supplementary Paper No. 10*: 1-4. (with N. Monaghan as second author).
325. Barnard (1899), an overlooked record of bird predation on an Australian butterfly, *Papilio aegeus* Donovan, 1805 (Lepidoptera: Papilionidae). *Calodema Supplementary Paper No. 15* : 1-2.
326. Metcalfe (1895), an overlooked reference on the biology and distribution of two Australian Cicadidae (Homoptera): *Cyclochila australasiae* (Donovan, 1805) and *Psaltoda moerens* (Germar, 1834). *Calodema Supplementary Paper No. 16*: 1-5.
327. A record of *Eriophora transmarinus* (Keyserling, 1865) (Arachnida: Araneidae) feeding on the large cetonid beetle, *Diaphonia dorsalis* (Donovan, 1805)(Coleoptera: Scarabaeidae). *Calodema Supplementary Paper No. 17*: 1-2.
328. Review of the biology of the genus *Pseudanilara* Thery, 1911 (Coleoptera: Buprestidae). *Calodema*, 9: 9-11.
329. Review of the biology of the genus *Merimna* Saunders, 1868 (Coleoptera: Buprestidae). *Calodema*, 9: 12-13.
330. Review of the biology of the genus *Neospades* Blackburn, 1887 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 19*: 1-3.
331. Notes on the occurrence and habitat of a population of *Thopha saccata* (Fabricius, 1803)(Homoptera: Cicadidae) on the central coast of New South Wales, Australia. *Calodema Supplementary Paper No. 20*: 1-2.
332. Review of the biology of the genus *Neocuris* Saunders, 1868 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 18*: 1-5.
333. Review of the biology of the genus *Torresita* Gemminger & Harold, 1869 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 21*: 1-2.
334. Review of the biology of the Australian species of the genus *Nascioides* Kerremans, 1903 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 22*: 1-7.
335. Review of the biology of the genus *Theryaxia* Carter, 1928 (Coleoptera: Buprestidae). *Calodema*, 9: 14.
336. Review: Dunn, K.L. & Dunn, L.E. (2006). *Review of Australian butterflies - 1991: Annotated version*. (CD-ROM). Melbourne, Australia: Published by the authors. AUD\$45. Available from www.calodema.com, *Calodema*, 9: 23-24.
337. Pollination of *Conospermum taxifolium* R.Br. (Proteaceae) by jewel beetles (Coleoptera: Buprestidae) in north-eastern New South Wales, Australia. *Calodema Supplementary Paper No. 26*: 1-4.
338. A review of the biology and a new larval host plant for *Cyrioides imperialis* (Fabricius, 1801)(Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 25*: 1-3.
339. Ecological notes on a small population of *Lomandra brevis* A.T. Lee (Lomandraceae) associated with a sandstone outcrop at Annangrove, New South Wales, Australia. *Calodema Supplementary Paper No. 7*: 1-3.
340. Some notes on the ecology and host plants of *Meneristes australis*

(Boisduval, 1835)(Coleoptera: Tenebrionidae). *Calodema Supplementary Paper No. 13*: 1-2.

341. *Ramphotyphlops nigrescens* (Reptilia: Typhlopidae) existing in a cow paddock in north-western Sydney, New South Wales, Australia. *Calodema Supplementary Paper No. 12*: 1-2.

342. Reptiles and amphibians inhabiting the environs of a tributary of Cattai Creek, Annangrove, New South Wales, Australia. *Calodema Supplementary Paper No. 33*: 1-7.

343. Beetles (Coleoptera) of the Shell Picture Card series: Buprestidae. *Calodema Supplementary Paper No. 30* : 1-7.

344. Beetles (Coleoptera) of the Shell Picture Card series: Curculionidae. *Calodema Supplementary Paper No. 31* : 1-2.

345. Beetles (Coleoptera) of the Shell Picture Card series: Cucujidae. *Calodema Supplementary Paper No. 32* : 1-2.

346. Beetles (Coleoptera) of the Shell Picture Card series: Passandridae. *Calodema Supplementary Paper No. 29* : 1-2.

347. Beetles (Coleoptera) of the Shell Picture Card series: Elateridae. *Calodema Supplementary Paper No. 35*: 1-2.

348. Beetles (Coleoptera) of the Shell Picture Card series: Brentidae. *Calodema Supplementary Paper No. 36*: 1-2.

349. Beetles (Coleoptera) of the Shell Picture Card series: Anthribidae. *Calodema Supplementary Paper No. 37*: 1-2.

350. Beetles (Coleoptera) of the Shell Picture Card series: Cleridae. *Calodema Supplementary Paper No. 38*: 1-2.

351. Beetles (Coleoptera) of the Shell Picture Card series: Chrysomelidae. *Calodema Supplementary Paper No. 39*: 1-2.

352. Beetles (Coleoptera) of the Shell Picture Card series: Geotrupidae. *Calodema Supplementary Paper No. 40*: 1-2.

353. Beetles (Coleoptera) of the Shell Picture Card series: Passalidae. *Calodema Supplementary Paper No. 41*: 1-2.

354. Beetles (Coleoptera) of the Shell Picture Card series: Staphylinidae. *Calodema Supplementary Paper No. 42*: 1-2.

355. Beetles (Coleoptera) of the Shell Picture Card series: Bostrychidae. *Calodema Supplementary Paper No. 43*: 1-2.

356. Beetles (Coleoptera) of the Shell Picture Card series: Lucanidae. *Calodema Supplementary Paper No. 44*: 1-3.

357. Beetles (Coleoptera) of the Shell Picture Card series: Tenebrionidae. *Calodema Supplementary Paper No. 45*: 1-3.

358. Beetles (Coleoptera) of the Shell Picture Card series: Hydrophilidae. *Calodema Supplementary Paper No. 48*: 1-2.

359. Beetles (Coleoptera) of the Shell Picture Card series: Cerambycidae. *Calodema Supplementary Paper No. 46*: 1-5.

360. Beetles (Coleoptera) of the Shell Picture Card series: Carabidae. *Calodema Supplementary Paper No. 47*: 1-4.

361. Beetles (Coleoptera) of the Shell Picture Card series: Scarabaeidae. *Calodema Supplementary Paper No. 49*: 1-6.

362. Australian insects mentioned and illustrated in the overlooked reference book of W.F. Kirby (1892) entitled: *Elementary Text-book of Entomology*. *Calodema*

Supplementary Paper No. 50: 1-9.

363. Finlayson (1935), an overlooked reference on the biology and distribution of the Australian cicada, *Thopha colorata* Distant, 1907 (Homoptera: Cicadidae). *Calodema Supplementary Paper No. 51: 1-3.*

364. Record of pollination of *Lomatia silaifolia* (Sm.) R.Br. (Proteaceae) by the cetonid beetle *Bisallardiana gymnopleura* (Fischer von Waldheim, 1823)(Coleoptera: Scarabaeidae) with comments on some entomological observations of Denham & Whelan (2000) in the *Australian Journal of Botany*. *Calodema Supplementary Paper No. 52 : 1-5.* (With J.R. Turner as second author).

365. Notes on the habitat and occurrence of *Craspedophorus australis* (Dejean, 1831)(Coleoptera: Carabidae). *Calodema Supplementary Paper No. 28: 1-2.*

366. Record of pollination of *Lomatia silaifolia* (Sm.) R.Br. (Proteaceae) by the longicorn beetle *Uracanthus triangularis* (Hope, 1833)(Coleoptera: Cerambycidae). *Calodema Supplementary Paper No. 53 : 1-3.* (With J.R. Turner as second author).

367. Reproduction of a letter by T.J. Hawkeswood to the editor of the *Australian Journal of Entomology* regarding an horrendous book review by C.A.M. Reid in that journal *Calodema Supplementary Paper No. 57: 1-3.*

368. Two letters concerning Prof. N.C.W. Beadle of the University of New England, Armidale, New South Wales, and T.J. Hawkeswood. *Calodema Supplementary Paper No. 56: 1-5.*

369. The conservation and ecological importance of a hill-topping site at East Killara, New South Wales, Australia. *Giornale Italiano di Entomologia*, 12: 31-45.

2008

370. Review of the biology and host plants of the Australian belid weevil *Belus semipunctatus* (Fabricius)(Coleoptera: Belidae). *Calodema Supplementary Paper No. 62: 1-3.*

371. *Rumex crispus* L. (Polygonaceae), a new adult host plant for three Australian species of *Cryptocephalus* Geoffroy, 1762 (Coleoptera: Chrysomelidae: Cryptocephalinae). *Calodema Supplementary Paper No. 63: 1-2.*

372. *Physalis peruviana* L. (Solanaceae), a potential host-plant for the Australian leaf beetle *Mecynoderes coxalgica* (Boisduval, 1835)(Coleoptera: Chrysomelidae). *Calodema Supplementary Paper No. 64: 1-2.*

373. Vertebrate fauna survey of a site at Mulgrave, New South Wales, Australia, which has since been cleared for industrial development. *Calodema Supplementary Paper No. 65: 1-7.*

374. Reptiles and amphibians recorded from a sandstone habitat bounded by Beaumont and Mundowi Roads, Mt. Kuringai, New South Wales, Australia. *Calodema Supplementary Paper No. 66: 1-5.* (With J.R. Turner as second author).

375. Reproduction of letter to the Minister of Employment, Education and Training in the R.J. Hawke Labor Government, Mr. John Dawkins, by T.J. Hawkeswood concerning employment opportunities in science in Australia. *Calodema Supplementary Paper No. 68: 1-4.*

376. Book Review: Barker, S. (2006). *Castiarina - Australia's richest jewel beetle genus*. Australian Biological Resources Study, Canberra. *Calodema Supplementary Paper No. 67: 1-5.* (With J.R. Turner as second author).

377. Review of the larval host plants and biology for nine species of the genus

- Castiarina* Gory & Laporte, 1838 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 73*: 1-6.
378. Review of the larval host plants and biology for fifteen species of the genus *Temognatha* Solier, 1833 (Coleoptera: Buprestidae). *Calodema Supplementary Paper No. 71*: 1-8.
379. Record of the rove beetle *Creophilus erythrocephalus* (Fabricius, 1775) (Coleoptera: Staphylinidae) feeding on part of a freshly dead carcass of the Eastern Blue-tongued Lizard, *Tiliqua scincoides* (White ex Shaw, 1790)(Reptilia: Scincidae) in a paddock in western Sydney, New South Wales, Australia. *Calodema Supplementary Paper No. 72*: 1-2. (With J.R. Turner as second author).
380. Record of a mass swarm of the Green Soldier Beetle, *Chauliognathus pulchellus* (Macleay, 1826)(Coleoptera: Cantharidae) in the Sofala area, New South Wales, Australia. *Calodema Supplementary Paper No. 74*: 1-2. (With J.R. Turner as second author).
381. Record of the Australian burying beetle, *Ptomaphila perlata* Kraatz, 1876 (Coleoptera: Silphidae) feeding and breeding in the dead carcass of a Swamp Wallaby (*Wallabia bicolor*, Mammalia: Macropodidae), with a review of its biology and habitat. *Calodema Supplementary Paper No. 79*: 1-5. (With J.R. Turner as second author).
382. Review of the biology and host plants of the Australian longicorn beetle *Pachydissus sericus* Newman (Coleoptera: Cerambycidae). *Calodema Supplementary Paper No. 80*: 1-2.
383. A letter to Mr Gregory Daniels of the University of Queensland, Brisbane, Australia regarding the qualifications of T.J. Hawkeswood. *Calodema Supplementary Paper No. 81*: 1-2.
384. Some correspondence between Mr Kevin Kenneally of the Western Australian Naturalists' Club, Perth, Western Australia and T.J. Hawkeswood and M. Peterson. *Calodema Supplementary Paper No. 84*: 1-4.
385. Reproduction of a letter to Mr Wayne Goss, Premier of Queensland by T.J. Hawkeswood. *Calodema Supplementary Paper No. 85*: 1-3.
386. A record of *Ramphotyphlops nigrescens* (Gray, 1845)(Reptilia: Typhlopidae) inhabiting the bark of a standing dead tree of *Eucalyptus gummifera* (Sol. ex A. Gaertn.) Hochr. (Myrtaceae) in the Blue Mountains, New South Wales, Australia. *Calodema Supplementary Paper No. 89*: 1-2.
387. Some observations on the host timber species, biology and habitat of *Achthosus westwoodi* Pascoe, 1863 (Coleoptera: Tenebrionidae) of eastern Australia. *Calodema Supplementary Paper No. 91*: 1-3.
388. A record of the Koala, *Phascolarctos cinereus* (Goldfuss, 1817)(Mammalia: Phascolarctidae) feeding on leaves and bark of *Angophora bakeri* C. Hall. (Myrtaceae) in the Kurrajong area, New South Wales, Australia. *Calodema Supplementary Paper No. 92*: 1-2. (With J.R. Turner and J.M. Turner as second and third authors).
389. A record of *Austrelaps superbis* (Günther, 1858)(Reptilia: Elapidae) from Leura, Blue Mountains, New South Wales, Australia with a description of its habitat. *Calodema Supplementary Paper No. 90*: 1-3. (With J.R. Turner as second author).

390. *Anobium jacquelinae* sp. nov., a new wood-boring beetle (Coleoptera: Anobiidae) from Baltic amber. *Giornale Italiano di Entomologia*, 12: 181-187. (With D. Makhan and J.R. Turner as second and third authors respectively).
391. *Cardiophorus jacquelinae* sp. nov., a new click beetle (Coleoptera: Elateridae, Cardiophorinae) from Madagascan copal amber. *Giornale Italiano di Entomologia*, 12: 189-197. (With D. Makhan and J.R. Turner as second and third authors respectively).
392. *Castiarina lisaejessicae* sp. nov., a new jewel beetle (Coleoptera: Buprestidae) from New South Wales, Australia. *Giornale Italiano di Entomologia*, 12: 199-203. (With J.R. Turner as second author).
393. *Melobasis abigailae* sp. nov. (Coleoptera: Buprestidae), a new jewel beetle from Australia, with observations on its larval host plant and biology. *Giornale Italiano di Entomologia*, 12: 205-212. (With J. R. Turner as first author).
394. A male *Papilio aegaeus* (Donovan) (Lepidoptera: Papilionidae) mud-puddling at seepage from a sandstone outcrop near Sydney, New South Wales, Australia, with discussion of similar behaviour among other Papilionidae in the Asia-Pacific region. *Giornale Italiano di Entomologia*, 12: 213-221. (With K.L. Dunn as first author and J.R. Turner as third author).
395. Review of the biology and host plants of six species of *Glenea* Newman, 1842 (Coleoptera: Cerambycidae) from Papua New Guinea and the Solomon Islands. *Giornale Italiano di Entomologia*, 12: 223-231.
396. Review of the biology and host plants of the Australian Sagrinae, Zeugophorinae, Donaciinae and Criocerinae (Coleoptera: Chrysomelidae). *Giornale Italiano di Entomologia*, 12: 233-247.
397. Review of the biology and host plants of twenty-six species of *Tmesisternus* Latreille, 1829 (Coleoptera: Cerambycidae) mainly from Papua New Guinea. *Giornale Italiano di Entomologia*, 12: 249-260.
398. Review of the biology and host plants of several species of *Trigonoptera* Perroud, 1855 (Coleoptera: Cerambycidae) from Papua New Guinea. *Giornale Italiano di Entomologia*, 12: In press.
399. Review of the biology and host plants of the longicorn beetle *Oxymagis horni* (Heller, 1912) (Coleoptera: Cerambycidae) from Papua New Guinea and the Solomon Islands. *Giornale Italiano di Entomologia*, 12: In press.
400. Review of the biology and host plants of several species of *Pterolophia* Newman, 1842 (Coleoptera: Cerambycidae) from Papua New Guinea and the Solomon Islands. *Giornale Italiano di Entomologia*, 12: In press.
401. Some observations on the host timber species, biology and habitat of *Achthosus westwoodi* Pascoe, 1863 (Coleoptera: Tenebrionidae: Ulomini) of eastern Australia. *Journal of the Entomological Research Society*, 11: 1-4.
402. Reproduction (with annotations) of two letters from the entomologist Mr C.E. Chadwick, addressed to T.J. Hawkeswood. *Calodema*, 95: 1-7.
403. Reproduction (with annotations) of five letters from the great entomologist Dr R.A. Crowson of Glasgow, Scotland, addressed to T.J. Hawkeswood during 1993-1994, with an additional letter from his wife, Mrs E.A. Crowson. *Calodema*, 97: 1-10.
404. *Latridius jacquelinae* sp.nov., a new scavenger beetle from Baltic amber

(Coleoptera: Latridiidae). *Entomologische Zeitschrift*, 119: 108-110.
